TITLE New Jersey Public School Racial/Ethnic Enrollments and Dropouts, 1978-79.
INSTITUTION New Jersey State Dept. of Education, Trenton.
PUB DATE Jul 79
NOTE 267p.: Prepared in cooperation with the Office of Equal Educational Opportunity. Some tables may be marginally legible due to broken print.

EDRS PRICE MF01/PC11 Plus Postage.
DESCRIPTORS American Indians; Asian Americans; Blacks; *Dropout Characteristics; *Dropouts; *Enrollment; *Ethnic Groups; Hispanic Americans; *Minority Groups; School Districts; *Sex; Tables (Data); Whites
IDENTIFIERS *New Jersey

ABSTRACT

This report consists of forty-four tables containing information (by county, district, and sex) on enrollment in and dropouts from New Jersey public elementary and secondary schools. Also presented for each section (enrollment and dropouts) is a summary of all-county figures that carries totals for the State. The racial/ethnic data contained in the report were abstracted from enrollment information collected in 1978 and from a study of dropouts from the 1977-78 school year. Racial/ethnic group categories utilized for collection and presentation of data are: white, black, Hispanic, American Indian/Alaskan Native, and Asian or Pacific Islander. (Author/GC)

NEW JERSEY PUBLIC SCHOOL RACIAL/ETHNIC ENROLLMENTS AND DROPOUTS 1978-79

Note:

This publication continues the use of racial/ethnic classification first collected and used in the 1976-77 publication. The data were abstracted from school reports collected by the Department of Education during the Annual Fall Survey and are reported as submitted by each school district. The report has been prepared in cooperation with the Office of Equal Educational Opportunity.

INTRODUCTION

The racial/ethnic data contained in this report were abstracted from the Enrollment Information Report and the Dropout Information Report collected by the Office of Management Information through the Fall Survey conducted in October 1978. The data were supplied by the public schools and districts of the State. The dropout data are for the year 1977-78, i.e., pupils who dropped out during the preceding school year and summer.

The report consists of forty-four (44) tables. Twenty-two (22) of the tables contain enrollment information and twenty-two (22) of the tables contain dropout information. The first table in each of two (2) sections of data is a county summary that carries State Totals. A brief narrative with highlights from the county and district data precedes the county and district tabulations. Copies of the instruments (forms) used to collect the data appear in the appendix to the report.

The 1978-79 Racial/Ethnic Enrollments and Dropouts publication contains tables reproduced from computer printouts. Because of printout size limitations column headings carry abbreviated titles. The abbreviations are defined in the narrative section preceding the county and district tabulations. For example, in the enrollment section, Hispanic as a percent of total enrollment reads: Hisp--Pct., whereas in the dropout section, Hispanic as a percent of total dropouts reads H--Per. Heading variations can be found in all racial/ethnic categories and in both the enrollment and dropout sections. Detailed interpretations of the column headings appear in the narrative supplied for each section of this report.

We want to acknowledge with sincere thanks the dedicated efforts of the school district and county data analysts who responded to our requests for data and the members of the Office of Management Information for their support in making this publication possible. The cover was designed by Janet Adrigan of the Federal/State Program Dissemination staff.

SECTION I

RACIAL/ETHNIC ENROLLMENT DATA

SECTION I

There were 1,337,327 students enrolled in New Jersey Public School Districts on September 29, 1978. That figure (the 1978 membership) was 44,201 less than the number reported in September 1977. This does not include some resident students who may have attended schools in other states for special reasons. It may include some pre-kindergarten students who are under the age at which children are admitted to other schools or classes in certain districts.

Newark, with 64,756 students had by far the largest public school enrollment among New Jersey's school districts. The second largest district was Jersey City with an enrollment of 34,706.

The five largest public school enrollments (1978-79) were reported by: Newark 64,756; Jersey City 34,706; Paterson 26,752; Camden 19,806 and Toms River 17,341 respectively.

Rounding out the top 10 school districts (by enrollment size) were: Trenton 16,001; Woodbridge 15,499; Elizabeth 14,829; Cherry Hill 14,458 and Hamilton Township (Mercer County) 13,319.

There were 17 districts with enrollments in excess of 10,000 students.

Because of declining enrollments, all of the 10 largest districts reported fewer enrollments than last year (1977-78).

At the other end of the ranking which covered 593 operating school districts was Stockton in Hunterdon County, the smallest grade school, with an enrollment of 46. One County Vocational School reported fewer enrollments, however, because of 'shared time' students received from other districts the data are not comparable.

Table I (Enrollments) shows that of the total number of students enrolled 74.1 percent were White; 17.6 percent were Black; 7.1 percent were Hispanic; 0.1 percent were American Indian or Alaskan Native; and 1.1 percent were Asian or Pacific Islander.

Of the total number of public school students enrolled 25.9 percent were reported as Minority. Counties that exceeded the State average of 25.9 percent minority were: Hudson with 58.9 percent; Essex 58.3 percent; Passaic 39.4 percent; Cumberland 37.0 percent; Atlantic 33.8 percent; Mercer 33.6 percent; Union 34.1 percent and Camden with 27.2 percent.

School districts that did not report Minority enrollments were located in the counties of Atlantic, Burlington, Camden, Cape May, Gloucester, Hunterdon, Middlesex, Monmouth, Ocean, Somerset, Sussex, Union and Warren.

School districts that reported 50 percent or more minority students were located in 13 counties. The 35 districts reporting 50 percent or more minority enrollments were as follows:

ATLANTIC	Atlantic City	74.7
	Egg Harbor City	54.6
	Pleasantville	77.7
BERGEN	Englewood City	71.3
CAMDEN	Camden City	90.3
	Chesilhurst	79.5
	Lawnside	99.2
CAPE MAY	West Cape May Boro	57.1
	Woodbine	76.4
CUMBERLAND	Bridgeton	58.6

SECTION II

RACIAL/ETHNIC DROPOUT DATA

SECTION II

There were 22,118 public school students reported as dropouts during the 1977-78 school year and over the summer months following the regular school year.* This was 257 more dropouts than were reported during 1976-77. Not all school districts reported dropouts. Of the 591 districts operating schools in 1977-78 only 302 reported dropouts.

Dropouts were reported for the same racial/ethnic categories used to report enrollments. Compared to 1976-77 the White student dropout population increased to 64.3 percent of all dropouts; the Black population decreased from approximately 27 percent to 25.4 percent of all dropouts, and the Hispanic dropout population remained at 10 percent of all dropouts. Statewide, the American Indian or Alaskan Native dropouts were one-tenth of one percent. The Asian or Pacific Islander group computed to two-tenths of one percent. The latter two groups (American Indian/Alaskan Native and Asian/Pacific Islander) accounted for 61 dropouts statewide. The White, Black and Hispanic dropouts were 99.7 percent of all dropouts appearing in Table I in this section.

A "Dropout" for purposes of the 1978-79 Fall Survey was defined as, "an elementary or secondary school student who has been in membership during the regular school term and who withdraws from membership before graduating from secondary school (grade 12) or before completing an equivalent program of studies. Such an individual is considered as having discontinued his schooling, whether this occurs during or between regular school terms, whether it occurs before or after he has passed the compulsory school attendance age, and, where applicable, whether or not he has completed a minimum required amount of school work".

The counties with the larger enrollments also reported the majority of dropouts. Counties with 1,000 or more dropouts were as follows: Essex county had 2,992 dropouts followed by Passaic, Hudson, Monmouth, Middlesex, Bergen, Camden, Ocean, Union, Mercer, Burlington and Cumberland respectively. Warren county reported 286 dropouts; Sussex 258; Salem 237; and Hunterdon 180.

Counties exceeding the State average of 35.7 percent minority dropouts were: Essex, Mercer, Hudson, Passaic, Cumberland, Union and Atlantic respectively. Counties reporting less than 10 percent minority dropouts were: Morris, Hunterdon, Warren and Sussex.

Table I (Dropouts) shows that when we classify dropouts as "Minority" we are describing primarily Black and Hispanic students. Of the 35.7 percent of "Minority" dropouts, 35.4 percent were Black and Hispanic students.

*Note: Dropouts occur during the school year and summer preceding the report year.
